School boards are not obligated to provide student transportation, but NPSSTS Member Boards do so for students who qualify within the terms established by the individual boards. Prime considerations in the design and operation of the resultant transportation system shall be safety, efficiency, and economy, concurrently reflecting maximum entitlement to applicable provincial grants. Transportation may be suspended or revoked for any student should their behaviour violate the Code of Conduct or otherwise be unduly disruptive to the provision of transportation, or should conditions change or agreements for the use of private property not be met.</li> <li>4. Student Transportation Operators have the authority to decline any approved use of private property due to safety reasons, hazard identification or any other legitimate concern which would involve their employees or property, provided they give sufficient notice to the NPSSTS so that changes to the route can be made without hindrance to the provision of transportation services.</li> <li>5.
